

The Parkinson's Institute is currently looking
for individuals with Parkinson's taking

Requip

Or

Mirapex

whose current dose is no longer sufficient
or who are not able to increase their dose to
a sufficient amount because of intolerable
side effects

Must not be taking Levodopa

You may qualify for an
18-week research study
on an investigational drug taken
in combination with
Requip or Mirapex

For more information, please contact Liza Infeld at 408-542-5626 or Linfeld@theipi.org

**Only 3 visits
to Sunnyvale!**
